Collabera

1️⃣ Introduce Yourself

"Good morning sir/ma'am.

My name is **Ketha Bala Venkata Ramana**. I am currently pursuing my **B.Tech in Computer Science Engineering**.

During my academics, I developed an interest in **computer networking, operating systems, and troubleshooting concepts**. I enjoy learning how computer systems work and how technical issues can be resolved efficiently.

I consider myself a **quick learner, adaptable, and a good team player**. I always try to improve my **technical knowledge and communication skills**, which are important in IT support roles.

As a fresher, I am looking for an opportunity where I can **learn industry technologies, gain practical experience, and grow professionally**. I believe this opportunity with **Collabera and HCL** will help me build a strong foundation in the IT industry."

Weekend Plans – Answer:

"On weekends, I usually like to relax and take a break from my regular routine. I spend time with my **family and friends**, and sometimes we go out or watch movies together.

I also like to **listen to music, browse the internet, or watch some interesting videos**. Sometimes I go for a walk or do something that helps me refresh my mind.

Overall, my weekends are mostly about **relaxing, spending time with loved ones, and recharging for the next week**."

2️⃣ Why Collabera?

"I want to join **Collabera** because it is a well-known global company that provides IT staffing and technology services to leading organizations.

Collabera gives fresh graduates an opportunity to work with major companies like **HCL**, which helps us gain real-time industry experience.

For me, this role will help improve my **technical skills, communication, and problem-solving abilities**, while working in a professional environment."

3️⃣ Why HCL?

"I want to work with **HCL** because it is one of the leading global IT services companies known for innovation and strong client relationships.

HCL provides a good platform for freshers to learn **IT infrastructure, networking, and support technologies**.

I believe working with HCL will help me gain valuable industry exposure and grow my career in the IT field."

4️⃣ What are your strengths?

"My strengths are **quick learning ability, adaptability, and good communication skills**.

I can easily adjust to new environments and technologies, and I enjoy learning new things that help improve my technical knowledge."

5️⃣ What is your weakness?

"One area I am improving is **being very detail-focused**, which sometimes takes extra time while completing tasks.
However, I am learning to **manage my time better and focus on priorities**."

6️⃣ Short-Term and Long-Term Goals

Short-term goal

"My short-term goal is to start my career in a good IT organization where I can gain practical experience and improve my technical skills."

Long-term goal

"My long-term goal is to become a **skilled IT professional or system/network engineer**, where I can handle more responsibilities and contribute to the organization."

7️⃣ What is LAN, WAN, MAN?

LAN – Local Area Network used within small areas like offices.
MAN – Metropolitan Area Network covering a city.
WAN – Wide Area Network covering large geographical areas like the internet.

8️⃣ What is an IP Address?

"An **IP address** is a unique numerical identifier assigned to each device connected to a network.
It helps devices communicate with each other over the internet."

Example: **192.168.1.1**

9️⃣ What is DNS?

"DNS stands for **Domain Name System**.
It converts **domain names into IP addresses** so that computers can locate servers on the internet."

Example:
google.com → IP address.

🔟 Difference between Router and Switch

Switch

- Connects devices within the same network
- Works with **MAC address**

Router

- Connects different networks
- Works with **IP address**

1️⃣1️⃣ What is Operating System?

"An **Operating System** is system software that manages computer hardware and software resources and allows users to interact with the computer.

Examples include **Windows, Linux, and UNIX**."

1️⃣ 2️⃣ What will you do if the customer says internet is not working?

“I would first understand the problem clearly from the customer.

Then I will check network connectivity, cables, and router status. I will verify IP configuration and restart network devices if necessary.

If the issue still continues, I will escalate it to the higher technical team while keeping the customer informed.”

1️⃣ 5️⃣ Why should we hire you?

“As a fresher, I bring **enthusiasm to learn, adaptability, and dedication to work**.

I have basic technical knowledge, good communication skills, and a strong willingness to grow. I believe these qualities will help me contribute positively to the organization.”

1️⃣ 6️⃣ What is your daily routine?

“My daily routine is quite organized. I start my day by planning tasks.

Most of my time is spent focusing on **studies and improving technical knowledge**. I also practice communication skills because they are important in IT roles.

In the evening, I review what I learned during the day and prepare for the next day’s tasks.”

⭐ 3 Situation Questions (Very Common)

If you don't know the answer?

“If I don’t know the answer, I will try to analyze the problem and look for possible solutions. If needed, I will ask my team members or refer to documentation so that I can solve the issue quickly.”

If customer is angry?

“I will stay calm, listen carefully to the customer’s issue, and assure them that I will help resolve it. Maintaining patience and professionalism is important while dealing with customers.”

If you have multiple tasks?

“I will prioritize tasks based on urgency and importance and complete them systematically while maintaining quality.”
